

Female x Female Brass Y Strainer

- Product Description

Item:	Brass Y Strainer	Size:	1/2" - 4"
Brass Material:	HPb 57-3	Connection Type:	Female X Female
Filter:	Stainless Steel	Working Pressure:	16 Bar(232 Psi)
Thread:	ISO228 (equivalent To DIN 259 And BS2779)	Working Temperature:	From -10 °C To +120 °C (from 14°F To 248°F)
High Light:	Female x Female Brass Y Strainer , HPb 57-3 Brass Y Strainer , EAC brass wye strainer		

Product Description

1/2 " To 4 " 16 Bar Brass Y Strainer

- Description

Working Pressure 16bar (232 psi)

Working Temperature from -10 °C to +120 °C (from 14°F to 248°F)

Thread ISO228 (equivalent to DIN 259 and BS2779)

- Details

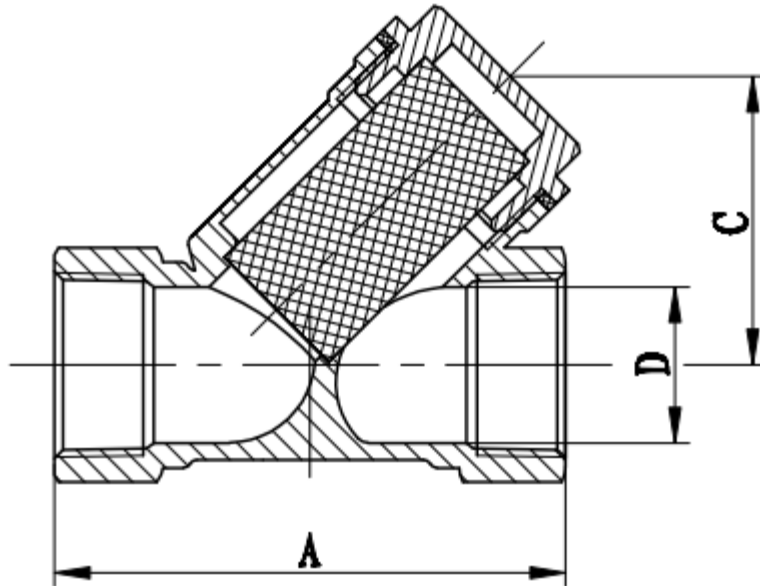

Brass Valve Body: High-density forging, no blister, no air holes, no leakage. Made by special high precision CNC machines.

Brass Cap: Hexagonal structure, by high-density forging, is easy to revolve to take out the filter.

Filter: Made of stainless steel 304, and can be taken out for cleaning after long-term use.

Seat: Made by pure PTFE, with high elasticity and wear resistance and is not easy aging.

- **Technical Specification**

1. Full flow Female x Female brass Y strainer.
2. The thread, materials, etc. can be customized.
