SYSTEMS**

FEATURES

- Manufactured from high-quality polyethylene (PE)
- Compression design for easy and quick installation
- Provides a secure and leak-free connection
- Resistant to corrosion, chemicals, and UV rays
- Suitable for potable water and irrigation systems
- Lightweight, durable and long service life
- No special tools required for installation

APPLICATIONS

- Potable Water Supply Systems
- Irrigation and Agricultural Systems
- Residential Plumbing
- Industrial Water Systems
- Swimming Pools and Water Facilities

SPECIFICATIONS

Product Type	PE Compression Equal Elbow 90°
Size	32MM
Material	Polyethylene (PE)
Type	Equal Elbow 90°
Connection Type	Compression x Compression
Color	Black
Working Pressure	PN16 (16 Bar)
Temperature Range	0°C to 40°C
Suitable Media	Water
Standards	BS EN 12201 / ISO 4427
Application	Water Supply / Irrigation
Country of Origin	Made in China

DIMENSIONS

SIZE (MM)	ANGLE	A (MM)	B (MM)	C (MM)
32	90°	96	96	64

Note: Dimensions are approximate and may vary slightly. All dimensions are in millimeters (mm).
