

1-1/4" (32mm) BRONZE NRS GATE VALVE

THREADED

MODEL: V3-GAN-GP16

PN16

232 PSI

The V3-GAN-GP16 is a high-quality bronze NRS (Non-Rising Stem) gate valve designed for reliable shut-off service in a wide range of piping systems. Built for durability, corrosion resistance, and long-lasting performance in demanding applications.

FEATURES

- Bronze body for excellent corrosion resistance
- Non-Rising Stem (NRS) design
- Solid wedge gate for tight shut-off
- Inside screw design
- Threaded ends to ANSI/ASME B1.20.1
- Rated to PN16 / 232 PSI
- Suitable for water, oil, gas, and non-corrosive fluids
- Durable construction for long service life

SPECIFICATIONS

Model	V3-GAN-GP16
Size	1-1/4" (32mm)
Type	NRS Gate Valve
Body Material	Bronze
Connection	Threaded (FPT)
Thread Standard	ANSI/ASME B1.20.1
Pressure Rating	PN16 / 232 PSI
Working Pressure	16 Bar (232 PSI)
Temperature Range	-10°C to 120°C
Applicable Fluid	Water, Oil, Gas, Non-corrosive Fluids

DIMENSIONS

SIZE	L (mm)	H (mm)	D (mm)
1-1/4" (32mm)	75.0	135.0	80.0
