

PINOLEAKPES

NO LEAK BETWEEN THE PIPES

RELIABLE. DURABLE. BUILT TO LAST.

ERA PE Pipes are manufactured from high-quality polyethylene (PE) resin using advanced extrusion technology to deliver superior strength, flexibility, and long-lasting performance. Ideal for a wide range of water supply and general piping applications.

HIGH STRENGTH

Excellent pressure resistance and impact strength.

LEAK-PROOF

Smooth inner surface for better flow and zero leakage.

FLEXIBLE & TOUGH

Easy to install and suitable for various site conditions.

UV RESISTANT

Resistant to sunlight and weathering.

SAFE & NON-TOXIC

Safe for drinking water and food-grade applications.

APPLICATIONS

WATER SUPPLY
SYSTEMS

IRRIGATION
SYSTEMS

RESIDENTIAL &
COMMERCIAL

INDUSTRIAL
APPLICATIONS

STANDARDS COMPLIANCE

ISO 4427

Polyethylene (PE)
Pipes

ASTM D3035

Specification for
PE Plastic Pipe

25MM (3/4") x 150MTRS PE PIPE

SDR-11 | THICKNESS 2.27MM | ERA | BLACK

STRONG &
DURABLE

LEAK-PROOF
PERFORMANCE

CORROSION
RESISTANT

UV
RESISTANT

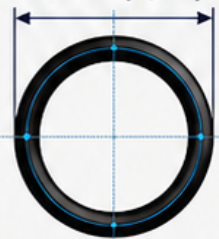

SAFE FOR
POTABLE WATER

SPECIFICATIONS

Product	PE Pipe
Size	25mm (3/4")
Length	150 Meters
SDR	SDR-11
Wall Thickness	2.27 mm
Material	Polyethylene (PE 100)
Color	Black with Blue Stripe
Working Pressure	Up to 16 Bar (PN16)
Standard	ISO 4427 / ASTM D3035
Brand	ERA
Application	Water Supply, Irrigation, General Piping Systems

25mm (3/4")

THICKNESS
2.27MM

FEATURES & BENEFITS

- High pressure and impact resistance
- Excellent chemical resistance
- Smooth inner wall for better flow
- Lightweight and easy to handle
- Long service life
- Low maintenance
- Cost-effective solution
- Environmentally friendly

QUALITY YOU CAN TRUST.
Products engineered for safety,
built for performance.
