

1" (25mm) MALE NPT "C" COPPER PISTON TYPE WATER METER HAMMER ARRESTOR

MODEL: SC-1000C
PPP®
**PREMIUM
PLUMBING
PRODUCTS**

The PPP SC-1000C Water Hammer Arrestor is a piston type "C" size device designed to absorb shock and prevent the destructive effects of water hammer in potable water systems. Manufactured with high quality copper and brass materials, it ensures long-lasting performance and reliable protection for your plumbing system.

 1.00 in
(25 mm)
MALE NPT

SPECIFICATIONS

Model	SC-1000C
Size	1" (25mm)
Connection	Male NPT
Type	Piston Type "C"
Body Material	Copper
Connection Material	Brass
Working Pressure	Max. 350 PSIG (24 bar)
Max. Working Temperature	250 °F (121 °C)
Approval	ASSE 1010
Standard	ASSE 1010-1996 Certified
Application	Potable Water Systems
Country of Origin	Made in USA

FEATURES

- ✓ Piston type "C" water hammer arrestor
- ✓ Copper body with brass male NPT connection
- ✓ Pre-charged and ready to install
- ✓ Helps protect pipes, valves, and water meters
- ✓ Reduces maintenance costs and downtime
- ✓ Compact size for tight installation spaces
- ✓ Long service life and reliable performance

APPLICATIONS

**RESIDENTIAL
PLUMBING**

**COMMERCIAL
BUILDINGS**

**INDUSTRIAL
FACILITIES**

**WATER METER
INSTALLATIONS**

HOW IT WORKS

When a water hammer occurs, the internal piston is forced upward, compressing the air cushion inside the chamber. This absorbs the shock and prevents pressure spikes from damaging pipes, valves, and fixtures.

**AIR
CUSHION**
