

CI A126 PRESSURE REDUCING VALVE

8" (200mm), Flanged, ANSI 150

SPECIFICATIONS			
	Size:	8" (200mm)	
	Material:	CI A126	
	Type:	Pressure Reducing Valve	
	Connection:	Flanged	
	Standard:	ANSI 150	
	Brand:	CRAFT	

RELIABLE PRESSURE CONTROL

Reliable pressure control for water system applications. Designed for stable downstream pressure and dependable performance.

KEY FEATURES

- Stable downstream pressure control
- Durable cast iron construction
- Flanged connection for secure installation
- Suitable for demanding piping systems

APPLICATIONS

Water Systems

Industrial Piping

Building Services

Fire Protection Support
