

EPDM 150LB | ANSI 150 FLANGED

RUBBER EXPANSION JOINT

FLEXIBLE CONNECTOR

FLANGED • ANSI 150 • SINGLE BELLOW

PINOX Rubber Expansion Joint is designed to absorb vibration, reduce noise, compensate for pipe movement, and protect pumps, valves, and piping systems. Its flexible EPDM rubber bellow and flanged ANSI 150 connection provide dependable performance for water, HVAC, fire protection, and industrial pipeline applications.

FLEXIBLE

Absorbs pipe movement

ANTI VIBRATION

Helps reduce noise

EPDM

Durable rubber bellow

SPECIFICATIONS

Brand	PINOX
Product	Rubber Expansion Joint
Type	Flexible Connector / Single Bellow
Connection	Flanged
Flange Rating	ANSI 150 / 150LB
Bellow Material	EPDM Rubber
Flange Material	Steel / Carbon Steel
Design	Single Sphere Bellow
Function	Absorbs vibration, noise and movement
Application	Water, HVAC, fire protection, industrial piping
Color	Black bellow with metallic flanges
Installation	Between flanged pipe connections

DIMENSIONS

* Exact dimensions vary depending on selected size and project requirements.

APPLICATIONS

- ✓ Water Distribution Systems
- ✓ Fire Protection Lines
- ✓ HVAC & Chilled Water Systems
- ✓ Pump Stations
- ✓ Industrial Piping Systems
- ✓ Plumbing & Mechanical Systems

FEATURES & BENEFITS

- ✓ Helps absorb vibration and reduce pipeline noise
- ✓ Flexible single bellow compensates pipe movement
- ✓ Protects connected equipment from stress and shock
- ✓ Flanged ANSI 150 connection for easy installation
- ✓ Durable EPDM rubber bellow for reliable service
- ✓ Suitable for waterworks, HVAC, and industrial use
